

IATSE LOCAL 205

RIGGING & ETCP PREPARATIONS

ZOOM MEETING:

Wednesday October 21st
9:00AM

OBJECTIVE:

To provide a general introduction to the profession of Event Rigging, as well as preparation for others wishing to elevate and become a Certified Rigging Technician.

Topics include review of responsibilities, people in charge, policies, liabilities, tools and equipment used, proper procedures, formulas and calculations, as well as many OSHA requirements.

Through the course of this meeting gain an understanding of basic and advanced skills used throughout the entertainment industry.

Offered at no cost to active IATSE members and individuals working under IATSE agreements.

Email interest to:

Vice-president@iatse205.org
